

Interprofessional education in clinical settings

Theory of change and impact pathways

A theory of change describes *how* the program works to bring about impact.

Foundational IPE elements

IPE facilitators and learners both contribute to these 3 interprofessional (IP) elements which feedback and strengthen each other.

IP learning processes

Activities that promote learning together and sharing diverse perspectives.

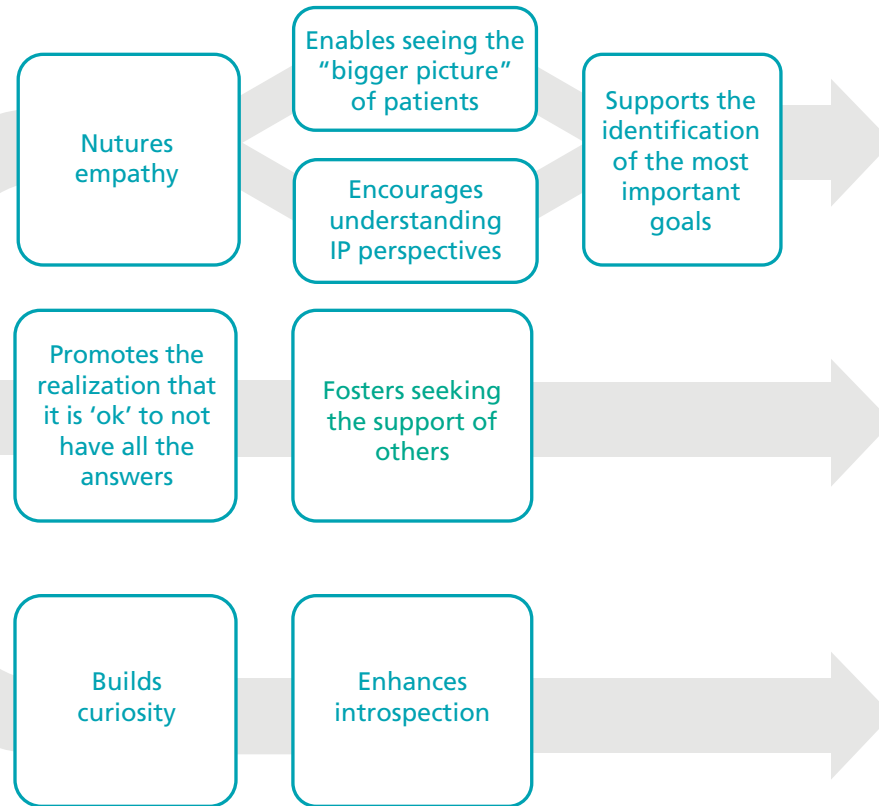

IP learning climate

Creating social and intellectual conditions that foster connection and viewing all ideas as equal.

IP learner mindset

Approaching learning together in a non-judgmental and curious manner.

Mechanism for achieving significant outcomes

Impact
